

Ravula Charan

Data Analyst | Machine Learning Practitioner | AI Automation Projects

Professional Summary

Data Analyst skilled in transforming raw data into actionable insights using Python, SQL, and machine learning. Experienced in building predictive models, data dashboards, and automation tools.

Technical Skills

Languages: Python, Java, SQL, MySQL, HTML, CSS, JavaScript

Frameworks/Libraries: Pandas, NumPy, Matplotlib, scikit-learn

Tools & Platforms: AWS Cloud Computing, SAP Analytics Cloud, Power BI, GitHub, VS Code, Jupyter Notebook

Core Concepts: Data Preprocessing, Feature Engineering, Regression & Classification, Model Evaluation, Data Visualization, EDA, Data Storytelling, SQL Joins, Dashboard Reporting, AI Automation

Soft Skills: Analytical Thinking • Data Interpretation • Technical Communication • Adaptability • Teamwork • Responsibility

Deployed Data Applications

Name Finder: AI-driven name generator that produces unique, brandable names with instant domain checks. Optimized algorithm reduced irrelevant results by 25%. ([View Site](#))

Allfincal: Data-driven financial calculator consolidating multiple computations into one platform. Designed backend logic to ensure 99% formula accuracy and reduced response time by 30%. ([View Site](#))

Applied AI Projects

Medifinder - AI-Assisted Medicine Locator: Built a Flask-based web app using geolocation APIs to identify nearby pharmacies, improving search efficiency by 35% and reducing API response time.

Posture Spine Recognition: Developed a real-time posture detection system using computer vision and keypoint estimation, achieving 92% alignment detection accuracy. ([View Demo](#))

Mood Magic Cam: Created an ML-based emotion detection app that adapts interface behavior dynamically, enhancing user interaction. ([View Demo](#))

Academic Projects

Intelligent Malware Detection Using Random Forest Algorithm

Jan-Jul 2024

Built a malware detection pipeline using feature engineering and ensemble learning, achieving 96% accuracy. Tested on custom datasets derived from Kaggle sources.

Experience

AI Intern (Python Developer) - Codsofts (Remote)

Aug-Sep 2023

Tools & Technologies: Python, TensorFlow, Keras, OpenCV, Flask, NLP Libraries, GitHub

Worked with Python, NLP, and TensorFlow to build and deploy small AI prototypes.

Education

SRM Institute of Science and Technology, Chennai

May 2025

Bachelor of Technology in Computer Science and Engineering

CGPA: 8.94 / 10

Certifications & Trainings

AI & ML: Artificial Intelligence Foundations - LinkedIn | Prompt Engineering with ChatGPT - LinkedIn
Building a Personalized Chatbot with OpenAI & LangChain - LinkedIn

Analytics: Career Essentials in Data Analysis - Microsoft + LinkedIn

Cloud: Oracle Cloud Foundations Associate (2024) | AWS Certified Cloud Practitioner - Udemy

Achievements

Publications: Malware detection (MSIT Delhi '24) | AI-based movement detection (IJFMR '24) | Insider threat graph analysis (IJCRT '24)
